

Implementation Procedures for EC 1105-2-404

Status:

In Progress

IWR Contact:

Lillian Almodovar (Lillian.Almodovar@usace.army.mil)

Purpose:

EC 1105-2-404 establishes the policy to formulate and recommend combined plans as a means to contribute to environmental sustainability as defined in the Corps Environmental Operating Principles. IWR is developing implementation procedures for the formulation and evaluation of combined plans. Two primary objectives of this effort are the development of acceptable trade-off analysis procedures and the development of software tools to assist in conducting the analysis.

Objective:

1)Analysis and evaluation of trade-off procedures 2)Development of formulation and evaluation procedures 3)Test the procedures in actual case study 4)Development of Engineering Pamphlet to document the procedures and results of case study application 5)Software tools to aid evaluation process
